

Agung Kurniawan

Frontend Developer & UI/UX Designer

Experienced in developing web applications with React and Next.js for more than one year, focusing on responsive, modular user interfaces optimized for performance, SEO, and user experience.

Education

Universitas Islam Makssar Indonesia July 2020 — July 2025

Concentration in Software Engineering, Minor in Computer Network Engineering

Degree: B.Sc. in Computer Science GPA: 3.65 / 4.0

Activities: Lab Assistan, Volunteer Quran Instructor

Featured Projects

Portfolio [🌐 Demo](#) • [GitHub](#)

- Implemented i18n featuring dynamic locale routing and seamless Static Site Generation (SSG) support.
- Optimized SEO performance by integrating dynamic metadata, Open Graph tags, automated sitemaps, and JSON-LD structured data.
- Enhanced Core Web Vitals, successfully achieving perfect 100/100 Lighthouse scores in both SEO and Best Practices metrics.
- Developed secure API routes utilizing Bearer Token authentication to facilitate automated data synchronization.

Job Tracker [🌐 Demo](#) • [GitHub](#)

- Optimized component re-renders by leveraging memoization techniques and stable references (refs).
- Enhanced Core Web Vitals by implementing skeleton loading states to significantly minimize Cumulative Layout Shift (CLS).
- Applied debouncing to user actions to effectively prevent API request spamming.*
- Implemented JWT-based authentication integrated with secure password hashing algorithms.

Experience

Full Stack Developer (Freelance) **Kalosi Community Health Center** July — Aug 2025

- Developed an administrative dashboard designed for health data management and informative content curation.
- Built real-time chat functionality, seamless web-to-Android data synchronization, and push notification systems.
- Implemented an HTML rich text editor, robust data export features, and secure authentication utilizing Appwrite and Better Auth.
- Collaborated directly with community health centers (Puskesmas) and integrated public feedback to continuously refine the application.

IT Engineer (Contract) **PT Pegadaian (Persero)** Oct 2024 — Apr 2025

- Deployed 40+ systems across diverse multi-site locations.
- Resolved technical bottlenecks to ensure seamless and efficient deployment processes.
- Documented implementation workflows and provided continuous technical support to end-users.
- Coordinated closely with cross-functional teams to align all deployments with standard operating procedures (SOPs).

Skills

Programming Languages

Javascript, Typescript, HTML, CSS

Libraries & Frameworks

React, Next.js, React Native, Expo, Tailwind, Kaplay

Tools & Platforms

Git, Github, Netlify, Vercel, Itch.io, Docker, Webpack, Vitest, Figma, Adobe Photoshop

Additional Projects

Escape The Factory

2D Pixel Art Game with Enemy AI | *Game Developer* (Tools: Unity, Godot, or Python/Pygame).

Web Animations

Educational website for CSS animations featuring an interactive, real-time testing playground.

Chatbot

Android chatbot application utilizing NLP and implemented a switch-case fallback structure to gracefully handle response failures.

Interests

Swimming, Comic Fiction, Typography, Web Accessibility

Languages

Indonesia — Native
English — B2 (Upper-Intermediate)
